

The following comments were taken from “Measured Value Surveys” completed by Info-Tech Members after working sessions with me:

---

“The support, business acumen and knowledge Jim has is second to none. Excellent Service and Extremely valuable.”

- Senior Manager in Provincial Government

“Great check-in with Jim. Strong input and guidance from Jim as we look to improve Business/IT strategic alignment and executive-level communications. Looking forward to ongoing engagements and executive IT advisory services.”

- Director, IT at Federal Crown Corporation

“Jim is the best. I love our chats. He has relevant experience to empathize with and understand what we are dealing with. He is always helpful and provides useful research and resources that are applicable.”

- Director, IT in Municipal Government

“Jim clearly understands the challenges I have and provides advice based on his personal experience and tools available within InfoTech.”

- Director, IT at Provincial Crown Corporation

“Jim has become part of my team. He works with where we are at, but most importantly challenges my assumptions and brings in different perspectives which has been extremely valuable in this process.”

- Director, IT at Policing Agency

“Jim Kirk is a wealth of knowledge and is able to understand our initiatives in depth to provide customized plans that are directly relevant to the work we are doing. He is also extremely professional and a pleasure to speak with.”

- Procurement Leader at Provincial Crown Corporation

“I think the thing that stands out for me thus far in working with Jim is the direct knowledge and experience he has to the environment I am working in. His experience and work history is directly relatable to our environment, so hearing him speak from experience and not from theory is very helpful.”

- Senior Manager in Municipal Government

“Jim is super knowledgeable and he "gets it" as far as IT transformations go.”

- CIO at Financial Services Regulator

“Jim gives me great insight, especially around the maturity of other like organizations. His experience and advice are useful in helping define our roadmap.”

- CIO in Municipal Government
